

This week, K2 discussed apples in preparation for our field trip next week. In science, K2 taste tested different types of apples and wrote about our favorite. We also followed a recipe to create applesauce. K2 learned about the letters "m" and "b" as we talking about munching and biting apples. Finally, K2 began our math unit on geometric shapes. Be sure to ask your scholar what shape an apple is!

Thank you to all the families that completed the September family project. They all look amazing! Please check them out in the classroom. The October family project will be going home next week.

Warmly,

Ms. Lindsay Daigneault-
ldaigneault@missiongrammar.org

Mr. Robert Williams-
rwilliams@missiongrammar.org

Books We Read This Week:

The Apple Pie Tree by Zoe Hall

Apples and Pumpkins by Anne Rockwell

Ten Red Apples by Pat Hutchins

Important Reminders

As the weather grows colder, please ensure that your scholar has a coat or sweater for outside times.

Please send your child a snack each day, even the days when they are having school lunch.

Dates to Remember:

- Monday, October 10th- No School
- Friday, October 14th- field trip to Tougas Farm ... If you have not, please return the permission slip as

Scholars enjoying our applesauce!
