

# Third Grade Newsletter

## January 27, 2012

Please sign and return all the order forms for Student Treasures. All students will receive their own **FREE** copy but I still need to return the forms.

For Saturday tutoring there will test prep work for the students. This service is free so I would strongly encourage you to send your child. The work includes material we have covered in class.

On Thursday, the scholars completed the mid term in Math. These are the units we covered in class since September. If you want to discuss the math and the report card, we can meet after Catholic Schools Week.

Thank you to all the chaperones who came with us to the Science Museum. We had a wonderful time!

Science projects are due next **Friday, Feb. 3.**

Have a Great Weekend!!!!
