

# The Greater Fifth Grader

Week of April 8, 2011

Ms. Gartside

Grades close on April 15<sup>th</sup>!!! Make sure you check student's engrade account to see if there is missing work.

If you would like for students to make up that last math test on fractions, next week is the last week to do so.

Also coming home this week is a Summer Skills order form. This company provides review books by grade level for students to complete over the summer to keep their skills sharp. I highly recommend that students get a workbook to prepare for middle school. They cost \$16 each and the order form is due on April 29<sup>th</sup>!

Here is one online activity for adding fractions. There are many other games as well that have students add fractions that may help them practice.

Have a great weekend!

Ms. Gartside
